Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is addy one way to cure deafness, and that is by constitutional remedies, Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbing sound or imperfect hearing, and when it is entirely closed beafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the nuncous surfaces. We will give One Hundred Bullars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
